

**MINNESOTA DEPARTMENT OF EDUCATION  
Economic Indicator Comparison Report  
SCHOOL YEAR 13-14**

**0031:01 BEMIDJI PUBLIC SCHOOL DISTRICT**

**Cycle: Fall 14**

Using your most recent MARSS submission 12/17/2013, this report compares the Economic Indicator counts reported by your district/charter school between the last two years. The Economic Indicator counts are used to calculate Compensatory Revenue for each school, to allocate Title I services for each school, and to determine eligibility for programs such as First Grade Preparedness and Student Load Forgiveness.

The report lists each school in your district/charter school with the corresponding Economic Indicator counts. Detailed counts of these categories are available through the MARSS Web Edit System (WES) summary report titled "Compensatory Revenue Student Count". The Economic Indicator counts shown below are limited only to those students who were enrolled over October 1 and who have a qualify State Aid Category\*. Additionally, students with MARSS errors or students in grade EC who don't have an IEP/IFSP/ILP are excluded for the counts.

The Fall FY13 data are final. However, use this report to identify reporting errors in the Fall FY14 MARSS files. Reporting errors or omissions must be corrected locally and the files resubmitted in the normal manner.
