

BEMIDJI AREA SCHOOLS **Building Student Growth Teams**

Roles and Responsibilities

The building Student Growth Team serves as leadership and support for staff members implementing RtI in their schools. The roles and responsibilities of the Student Growth Team are as follows:

1. Work with the principal to examine assessment data as it becomes available. Participate with the principal in building assessment data progress reviews.
2. Work with the principal to establish building reading and math goals, and communicate those goals with staff members. Ensure that building goals are aligned with district goals.
3. Stay informed of reading and math goals developed by classrooms and/or grade levels in their PLCs. Help ensure that classroom/grade level goals are aligned with the building goals.
4. Assist the building principal and the RtI Specialist in the facilitation of RtI Team meeting discussions and record-keeping.
5. Become knowledgeable in the academic and behavioral intervention strategies suggested by the RtI Specialist. (The RtI Specialist will train the team in these strategies at monthly meetings.) Be willing to assist staff members with the training, selection, and implementation of the strategies as needed.
6. Write and evaluate the building's School Improvement Plan.
7. At the end of the school year, advise the principal and RtI Specialist of the needs of the building for the following year.
