

Sculpture w/ Mrs. Wiste: Creativity is one of the most important skills in our world today! Learn creativity in this 3D art class while working with materials that you love. We will go over clay, the wheel, cardboard, wire, plaster and more, teaching you how to create amazing 3D art. Also, in the second part of class you will have the opportunity to choose the materials you love, and design art that is important to you as an artist. In this class, using your personal voice, having a desire to learn new skills, and doing your best is much more important than natural talent.
