## Step 2:

Upon completion of Step 1, a browser window will open, directing you to your Google to authenticate. Enter your e-mail address and password and press **Next**

Open CrisisGo?

https://saml.crisisgo.net wants to open this application.

Open CrisisGo Cancel

**You have connected with CrisisGo successfully. You can close this webpage now.**

**Tips: If the CrisisGo app did not start, please close your browser and try again.**

## Step 3:

If successful, the top image will appear, and your browser will display the bottom image. Please close the browser window and Press **Open** CrisisGo to launch and sign into the CrisisGo application.

*For Password Resets: If you use this method to log into CrisisGo, your organization controls your username and password. If you do not know your password, you can attempt to reset it in Google, or you may contact your local IT Department to reset it. Attempts to reset your password within the CrisisGo application will not be successful.*
